

GRIMOLDBY PRIMARY SCHOOL

Special Educational Needs (SEN) Policy

1 Introduction

- 1.1** This school provides a broad and balanced curriculum for all children. The National Curriculum is our starting point for planning that meets the specific needs of individuals and groups of children. When planning, teachers set suitable learning challenges and respond to children's diverse learning needs. A minority of children has particular learning requirements that could create barriers to learning.
- 1.2** These requirements are likely to arise as a consequence of a child having special educational needs. Teachers take account of these requirements and make provision, where necessary, to support individuals or groups of children and thus enable them to participate effectively in curriculum and assessment activities.
- 1.3** Children may have special educational needs either throughout, or at any time during, their school career. This policy ensures that curriculum planning and assessment for children with special educational needs takes account of the type and extent of the difficulty experienced by the child.

2 Aims and objectives

- 2.1** The aims of this policy are:
- to create an environment that meets the special educational needs of each child;
 - to ensure that the special educational needs of children are identified, assessed and provided for;
 - to make clear the expectations of all partners in the process;
 - to identify the roles and responsibilities of staff in providing for children's special educational needs;
 - to enable all children to have full access to all elements of the school curriculum.

3 Educational inclusion

- 3.1** Through appropriate curricular provision, we respect the fact that children:
- have different educational and behavioural needs and aspirations;
 - require different strategies for learning;
 - acquire, assimilate and communicate information at different rates;
 - need a range of different teaching approaches and experiences.
- 3.2** Teachers respond to children's needs by:
- providing support for children who need help with communication, language and literacy;
 - planning to develop children's understanding through the use of all available senses and experiences;
 - planning for children's full participation in learning, and in physical and practical activities;
 - helping children to manage their behaviour and to take part in learning effectively and safely;
 - helping individuals to manage their emotions, particularly trauma or stress, and to take part in learning.

4 Special educational needs

Special Educational Needs (SEN) Policy

- 4.1** Children with special educational needs have additional learning needs that call for special provision to be made. All children may have special needs at some time in their lives.
- 4.2** The 1981 Code of Practice and 1993 Education Acts instructed schools to distinguish between the different stages of assessment – mainly school-based for School Action and multi-agency for School Action Plus.
- 4.3** In our school the Special Educational Needs Co-ordinator (SENCO):
- manages the day-to-day operation of the policy;
 - co-ordinates the provision for and manages the responses to children’s special needs;
 - supports and advises colleagues;
 - maintains the school’s SEN register;
 - contributes to and manages the records of all children with special educational needs;
 - manages the school-based assessment and completes the documentation required by outside agencies and the LEA;
 - acts as the link with parents;
 - with the support of the SEN TA’s maintain resources and a range of teaching materials to enable appropriate provision to be made;
 - acts as link with external agencies and other support agencies;
 - monitors and evaluates the special educational needs provision and reports to the governing body;
 - manages a range of resources, human and material, linked to children with special educational needs.

5 The role of the governing body

- 5.1** The governing body does its best to secure the necessary provision for any pupil identified as having special educational needs. The governors ensure that all teachers are aware of the importance of providing for these children. They consult the LEA and other schools, when appropriate, and report annually to parents on the success of the school’s policy for children with special educational needs.
- 5.2** The governing body has decided that children with special educational needs will be admitted to the school in line with the school’s agreed admissions policy.

6 Allocation of resources

- 6.1** The SENCO is responsible for the operational management of the specified and agreed resourcing for special needs provision within the school, including the provision for children with statements of special educational needs.
- 6.2** The headteacher informs the governing body of how the funding allocated to support special educational needs has been employed.
- 6.3** The headteacher and the SENCO meet to agree on how to use funds directly related to statements.

7 Assessment

Special Educational Needs (SEN) Policy

- 7.1 Early identification is vital. The class teacher informs the parents at the earliest opportunity to alert them to concerns and enlist their active help and participation.
- 7.2 The class teacher and the SENCO assess and monitor the children's progress in line with existing school practices.
- 7.3 The SENCO works closely with parents and teachers to plan an appropriate programme of intervention and support.
- 7.4 The assessment of children reflects as far as possible their participation in the whole curriculum of the school. The class teacher and the SENCO can break down the assessment into smaller steps in order to aid progress and provide detailed and accurate indicators.
- 7.5 The school uses a four stage model to respond to children's special educational needs based on those set out in the Code of Practice.
- **Cause for Concern:** the class teacher identifies and consults with the SENCO, implements various strategies in the classroom that are appropriate and informs parents of action.
 - **School Action:** the SENCO supports the class teacher in gathering information and co-ordinating the provision in school; I.E.P.s or G.E.P.s may be used if the child or children need something that is different to or additional to what is differentiated in the classroom.
 - **School Action Plus:** the teacher and the SENCO are supported by outside agency involvement;
 - **MDA:** multi-disciplinary assessment is carried out, child proceeds with provision provided at School Action Plus.
 - **Statement:** child has statement of special educational need set out by the LEA, school implements this.
- 7.6 The LEA seeks a range of advice before making a formal statement. The needs of the child are considered to be paramount in this.

8 Access to the curriculum

- 8.1 All children have an entitlement to a broad and balanced curriculum, which is differentiated to enable children to:
- understand the relevance and purpose of learning activities;
 - experience levels of understanding and rates of progress that bring feelings of success and achievement.
- 8.2 Teachers use a range of strategies to meet children's special educational needs. Lessons have clear learning objectives; we differentiate work appropriately, and we use assessment to inform the next stage of learning.
- 8.3 Individual Education Plans, which employ a small-steps approach, feature significantly in the provision that we make in the school. By breaking down the existing levels of attainment into finely graded steps and targets, we ensure that children experience success. All children on the special needs register have an IEP.
- 8.4 We support children in a manner that acknowledges their entitlement to share the same learning experiences that their peers enjoy. Wherever possible, we do not withdraw children from the classroom situation. There are times though when, to

Special Educational Needs (SEN) Policy

maximise learning, we ask the children to work in small groups, or in a one-to-one situation outside the classroom.

9 Partnership with parents

- 9.1** The school prospectus contains details of our policy for special educational needs, and the arrangements made for these children in our school. The governors' annual report to parents contains an evaluation of the policy in action. A named governor takes a special interest in special needs and is willing to meet with parents and SENCO to discuss any problem.
- 9.2** At all stages of the special needs process, the school keeps parents fully informed and involved. We take account of the wishes, feelings and knowledge of parents at all stages. We encourage parents to make an active contribution to their child's education.
- 9.3** We have regular meetings each term to share the progress of special needs children with their parents. We inform the parents of any outside intervention, and we share the process of decision-making by providing clear information relating to the education of children with special educational needs.
- 9.4** Parents with any complaint regarding the provision made at school with children with SEN should put the complaint in writing and follow the normal complaints procedure.
- 9.5** The Governing body encourages staff to participate in In-service training in relation to SEN
- 9.6** The Head Teacher is the named person in regards to links with child health services, social services and educational welfare services and any voluntary organisations which work on behalf of children with SEN.

10 Monitoring and evaluation

- 10.1** The SENCO monitors the movement of children within the SEN system in school.
- 10.2** The SENCO is involved in supporting teachers involved in drawing up Individual Education Plans or Group Education Plans for children. The SENCO and the headteacher hold regular meetings to review the work of the school in this area. The SENCO and the named governor with responsibility for special needs also hold meetings.
- 10.3** The Governing Body reviews this policy annually and considers any amendments in light of the annual review findings.

Signed: Mrs. K. Forsyth
